

DAILY BUGLE™

MESSIAH COMPLEX: *AND THEN THERE WERE 199!*

DAILY BUGLE

THE END ISN'T NEAR...IT'S HERE!

With the stunning conclusion to *Endangered Species*, the impossible has happened—a new mutant has been discovered! *X-Men: Messiah Complex One-Shot* kicks off the first major X-Men crossover in over two years and sets the X-Men on a course that will leave them forever changed...assuming they survive the X-genocide! Written by Eisner-winning "Best Writer" Ed Brubaker (*Uncanny X-Men*) and featuring the art of superstar Marc Silvestri (*Civil War: The Initiative*), this special one-shot kicks off one of the most significant stories in X-Men history! Perfect for readers new and old, *X-Men: Messiah Complex One-Shot* sends the X-Men, the New X-Men, X-Factor, the Marauders and many more on a quest to secure this new mutant, hoping to discover the reason for such a far-reaching manifestation. But what does each group want with this child? And which X-Men will turn against their own teammates to further their own agenda?

"When we say huge, we mean HUGE," says X-Men editor Nick Lowe. "The biggest X-Men story of the decade begins here. The line is drawn and the future of the mutant race is at stake. Sides are taken and not everyone takes the side you think they will."

"We've got one of the biggest writers in comics and one of the best X-Men artists ever on board to kick off this story that changes the X-Men as we know them. If you're an X-Men reader, you are in for such a treat. If you've gone missing and left us in the X-Office behind, this is what you need to come back for. Ed Brubaker and Marc Silvestri both brought their A-Game to this and it's going to show. And David Finch on the cover makes this a must-have. But the best thing? The story only gets better."

"No book comes out of this unscathed. And the X-Men are up for the biggest change since the 80's."

It's been a decade since the last major X-Men crossover and the roads have been planted for the most X-plosive event in X-Men history! As the first new mutant enters the world, everyone's true agenda comes to light and marauding reaches the point of no return. As the X-Men meet their end, the *Messiah Complex* will reign supreme and nothing will ever be the same!

A SKRULL WALKS AMONG US!

Illustration by [illegible]

The Kalf. The Secret War. M-Day. The Civil War. These events have shaken the Marvel Universe to its very core over the past year, but are they merely coincidence, or part of a larger plan? In the pole-positioning *New Avengers #12*, it was revealed that Nick Fury, the leader of the Hand clan, was actually a Skrull in disguise. This startling discovery may be the beginning of a Skrull invasion, and it only stands to be too late for Earth. The *New Avengers* have already started to question who among them is a Skrull. Now, the *Daily Bugle* takes a look at the Mighty Avengers line-up and asks: Who is a Skrull?

The Mighty Avengers

Idea New: Tony Stark pushed the Superhero Registration Act through legislation coming a conspiracy superhero war, and now he signs over S.H.I.E.L.D., one of the most powerful military organizations in the world. In all of this Ultron business, just as much to go off the radar and make contact with other Skrull allies?

Skrull-o-Meter: 4 of 4

Ms. Marvel: As Tony's right-hand woman and leader of the Mighty Avengers, Carol Danvers is in a position of power as well — can she be trusted?

Skrull-o-Meter: 2 of 4

The Sentry: The man with "the power of a million exploding suns" is known to struggle from acute

self-hatred, so perhaps he could be a Skrull and not know it himself?

Skrull-o-Meter: 3 of 4

Avon: The sun-burn powerhouse of The Mighty Avengers does not exactly follow orders well, but that might be due to his brash personality rather than a secret Skrull identity.

Skrull-o-Meter: 2 of 4

Wasp: One of the founding members of the Avengers, the Wasp has a lot more than Skrulls on her mind after Ultron just declared her enemy while sporting the face of Janet Van Dyne.

Skrull-o-Meter: 1 of 4

Wander Man: Super hero, actor, and stuntman Simon Williams has not done anything out of the ordinary lately, but acting ordinary for a super hero is out of the ordinary in itself.

Skrull-o-Meter: 1 of 4

Black Widow: Like Jessica Drew, the Black Widow has held many alter egos over her illustrious career; plus, she used to be one of Tony Stark's lovers. If Tony is a Skrull, couldn't he have retooled her into joining a legion of invading Skrulls?

Skrull-o-Meter: 2 of 4

Hold on tight, Time Believers, because things are about to get rocky for the *New* and *Mighty Avengers*, as well as the entire *Marvel Universe*! A Skrull could be lurking around every corner! When moments explode and push comes to shove, you must ask yourself, "Who do you trust?"

ACCLAIMED NOVELIST LETHEM RE-IMAGINES OMEGA: THE UNKNOWN

In 1975, co-writers Steve Gerber and Mary Skerine created the most reluctant anti-hero, Omega the Unknown. Although the series only lasted for ten brief issues, one of the original fans cannot wait to be acclaimed novelist Jonathan Lethem (*Masterless Revolution*, *Paradox of Solitude*). Now the award-winning writer Lethem, along with Karl Buzsaki and talented artists Paul Derynple and Paul Hornschmeier are re-creating an Omega for the twenty-first century in *Omega: The Unknown #1*.

In the original series, Omega was the lone survivor of an alien planet pursued by the robots who destroyed his world. The narrative was also steeped with a young named James-Michael Starling who had recently lost both his parents in a tragic car accident. The hero and the boy travel to New York City where Omega the Unknown becomes a small-time superhero and James-Michael faces trials in an inner-city public school. Despite setbacks the year due to James-Michael's mysterious resemblance to Omega, but before any definite conclusions

were drawn, the series ended with Omega's untimely death!

Over three decades later, Jonathan Lethem is re-defining the series in a ten chapter series that will thrill old and new fans alike — you can't miss the first chapter of *Omega: The Unknown* this October!

MARVEL ZOMBIES

The best-selling *Marvel Zombies* phenomenon returns this fall with the long-awaited sequel: *Marvel Zombies 2!* Featuring more zombies and more blood than you can shake a decapitated head at, fan favorite writer Robert Kirkman, Eisner-winning artist Sean Phillips and acclaimed cover artist Arthur Suydam return with a tale of Civil War...zombie style! The *Zombies* have traveled beyond Earth, to all corners of the universe, and now return home to feast. But is there anything left for them to devour?

"The *Marvel Zombies* have been out in the courts, eating and making new friends for 40 years," explained Kirkman. "But there's nothing left out there—the food is all gone and so all they can do is return to Earth and start over. Meanwhile, a small pocket of civilization has been flourishing on Earth. The conflict leads to a rift in the zombie ranks—and what we end up with is *Marvel Zombie versus Marvel Zombie!*"

But if you're as hungry as our half-dead heroes, you'll want some more *Zombie* action and Marvel doesn't disappoint. Be sure to pick up *Marvel Spotlight: Marvel Zombies*, which takes a special look back at the origin of this fan favorite, instant cult classic, including interviews with the creative minds behind it all!

These *zombie* covers have captured the attention of fans everywhere and now for the first time they're being collected in one gory volume!

And the Bugle can't say much yet, but the *Marvel Zombies* have taken a bite out of many of the October *Marvel* titles. Be on the lookout this October for *Zombie* variants on a plethora of titles, but which of your favorite books will have undead variant covers? We could tell you, but we'd have to eat your brains!
